This section is being widened to four lanes as a part of Mumbai-Chennai section of golden Quadrilateral under National Highway Development Project in five construction packages. Walajapet-Kanchipuram (km 106.4 to 70.2) section has already been completed. The progress achieved in the remaining packages is in the range of 54—96%. Some delays have occurred due to difficulty in land acquisition, removal of structures, relocation of utilities and construction of road over-bridge. Delay on the part of some contractors has also affected the progress of work.

(c) These projects are being monitored very closely. Inter-departmental coordination has been undertaken with the State Govt, and Railways. Further, where a contractor is performing poorly, he is declared "non-performing" and debarred for future contracts.
